EXPERIENCE

Coding Dojo, Washington, D.C. — *Apprentice Bootcamp Leader | Web Development*
December 2016 to Present
- Achieved an 87.2% student passing rate by leading cohorts through a technology stack each month. That includes leading technical lectures, guiding algorithm sessions, and providing technical coaching.

- Earned an 8.8 average NPS (net promoter score) by creating a great learning environment, engaging students, and using my technical expertise to aid their progress through each course.

- Provided technical coaching for multiple technology stacks including: Web Fundamentals, Python with Django stack, MEAN stack, and Ruby on Rails Stack.

- Improved the learning platform by creating solution files and video walkthrough for key assignment, and making various corrections/additions to different courses.

Ahead of the Game Marketing, Miami, FL — *Web Consultant*
July 2015 to April 2016
- Consulted with clients to gather requirements and develop web solutions using HTML, CSS, and JavaScript.
- Partnered with offshore developers for larger scope website solution projects.

Salsa Caliente Dance Studio, Gainesville, FL — *Branch Manager | Instructor*
January 2009 to August 2014
- Implemented marketing strategies to focus on corporate events, increasing total profit by 30% per year.
- Increased class attendance by 25% within first by establishing marketing team with no additional overhead.
